Tuition Rates - Effective October 1, 2019

This tuition chart reflects a change to a rate structure based on the child's birthday, and not the classroom they are in. Rates will be changed as a child turns 1, 2, or 3 on the next billing cycle after their birthday. For monthly families the change will be made on the invoice closest to the child's birthday. Another exception will be an incentive potty trained rate for Toddlers and 2 Yr Olds that is a 10% discount from their Age rate for achieving successful potty training after 2 weeks accident free at school. This is an incentive to work cooperatively with teachers and to maintain good communication.
